

Khubi Joshi

Product Designer · Bengaluru · Six+ years of experience

AI-native Product Designer with 6+ years shipping polished, visually rich, and highly interactive experiences across web and mobile. Strong in end-to-end product design, design systems, and user research, with a focus on craft, interaction detail, and clarity in complex systems. Fluent with modern AI design tools (Figma Make, Copilot, and rapid prototyping workflows) and recently designed an AI-powered internal tool at Wells Fargo. Experienced in fintech, banking, and marketplace products. Based in Bengaluru and available immediately.

EXPERIENCE

Independent Product Design— Bengaluru · Freelance

May 2026 — Present

- Taking on selected freelance projects. Available immediately for full-time roles.

Product Designer— Wells Fargo

Feb 2024 — May 2026

- Designed and shipped an AI-powered internal tool for Product Managers (0→1) that searches code repositories and documentation, focusing on clear uncertainty states, source transparency, and usable answers in under 3 weeks.
- Owned end-to-end redesign of financial health surfaces on the public site and contributed key components to the enterprise design system, ensuring visual consistency and scalability across web experiences.
- Enhanced bill payments UX with polished interaction details and optimized flows for efficiency and higher task completion.
- Mentored designers and supported the legacy-to-modern platform migration, improving usability and design quality.

Product Designer— Cars24

Jun 2022 — Jan 2024

- Led end-to-end design for the Cars24 dealer app (research, usability testing, high-fidelity delivery across iOS and Android), improving TAT, NPS, and conversion rates in a complex multi-stakeholder environment.
- Designed and shipped a secure, seamless end-to-end Challan payment flow (0→1) with strong trust states — 16k+ visitors and 4.4k payments in the first 8 days.
- Owned Refer & Earn lead submission and status system (0→1, mobile), contributing to a 21% increase in cars on platform.
- Optimized the Sell Online flow, streamlining the user journey for higher conversions and satisfaction with clear interaction details.

Product Designer— Klubworks

Apr 2021 — Jun 2022

- Led design for Klub's patron platform, productising syndicate financing flows and improving engagement with intuitive, visually consistent interfaces.
- Revamped the company website to enhance user experience and align with brand guidelines.

UI/UX Designer— Spottabl

Nov 2019 — Apr 2021

- Led design across the admin platform, SaaS hiring product, and consumer platform — establishing one consistent design vocabulary and system across three products.
- Managed end-to-end design for social media, marketing assets, and a full website revamp.

UI/UX Designer— Grexter

Jun 2019 — Oct 2019

- Conceptualised and designed a tenant-friendly dashboard for rent monitoring, event updates, amenities, and community interaction on a co-living platform.
